

# 373 Adaptor

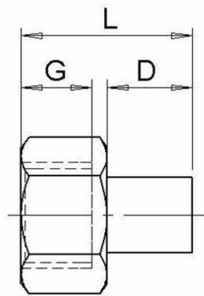

## Technical Data

Max. working pressure:	1.6 MPa
Working temperature:	Max. 100 °C
Thread standard:	G - female thread
Other data:	Material, Dezincification-resistant brass Thread standard, Tube adapter for compression fitting plus 1 x internal cylindrical thread (G)

Adapter for couplings for heating water and tapwater, air, gas and certain oils. For more information, see the separate product sheet for compression fittings.

## 373 - Compression fitting / Female thread
